

CR-WiFi6302/04B Wireless Conference Microphone – Chairman/Delegate

Description:

Owing to the special process design, our CR-WiFi6302/04B (Chairman/Delegate) wireless conference microphone is steady and durable. It is able to blend in with any conference rooms.

This wireless conference microphone is equipped with a built-in antenna. The built-in high-performance battery pack provides 9-hour continued speaking time and 13-hour standby time. All functions of the conference unit can be completed through the keys on the panel. In addition, our product adopts the encrypted Wifi transmission technology, 2.4G RF frequency hopping technique, and a unique ID code for receiving, so as to ensure that the speech will not be intercepted by an unauthorized party.

Technical Parameters

Model	CR-WiFi6302/04B
Connecting Component	
Base	For pluggable microphone
Headphone jack	1 piece of 3.5mm (0.14 inch) stereo headphone jack
Power supply	DC input power (can be connected after the battery pack is removed)
Electrical Specifications	
Frequency response	30Hz ~20kHz
Headphone load impedance	>32 Ohm <1K Ohm
Speaker power	2x2W/4 Ohm
Wireless Indicators	
Standard	IEEE Draft 2.0 802.11n
Wireless frequency range	4.900-5.850GHz
Transmit power	15dBm
Antenna gain	2dBi
Specification	
Maximum power consumption	2.6W
Cell output voltage	7.4V
Battery capacity	4800mAH
Continued speaking time	9 hours
Static standby time	13 hours
Maximum charge time	3 hours
Color	Black
Size (mm)	φ=165, H=64
